EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 15-17.

2. The following is an examiner's statement of reasons for allowance: Regarding claims 1, 4, 9 and 18, applicant incorporates the subject matter of a buoyancy system having a section or area filled with liquid. In the primary reference, Fawcett teaches air and not a liquid as the fluid providing a buoyant force on the magnet capsules in the system. There is no motivation in the remaining prior art of record which would suggest modification to remedy this deficiency, particularly because Fawcett's disclosure is directed to the use of gas pressure for driving the capsules (c.1, lines 46-48; c.2, lines 43-46), and would not work with a liquid providing a buoyant force.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Burton S. Mullins whose telephone number is 305-7063. The examiner can normally be reached on Monday-Friday, 9 am to 5 pm. Any inquiry of a general
